

All Saints C of E Primary School
Tic Tac Toe Challenge
Year 4

Autumn Term 1 "Invaders and Settlers - Why do we speak English at school?"

Please complete all 3 challenges highlighted in yellow. These are your ongoing homework tasks. Choose as many other tasks/learning opportunities to complete as you wish. Bring your work to show at the Tic Tac Toe assembly on Wednesday 19th October at 2.45pm

English/ Spellings

Each week you will have spellings related to a phoneme or pattern to learn. There will be a test each Monday. Attached is the Year 3-4 word list. The expectation is that you know how to spell all of these words by the end of Year 4.

Art / DT

Paint, draw or sculpt your very own Anglo-Saxon or Viking ship which would have sailed in to reach the shores of Britain so the invaders could then settle here thousands of years ago.

Science/English

We will be finding out about light and shadows this half-term. Design and make a shadow puppet. If you are feeling really adventurous you might like to make Viking themed puppet/puppets and tell a Viking story you have researched!

History

Research one of the Roman or Viking gods and present your findings as a fact file. Provide interesting details and myths or tales they feature in.

Reading

Reading is one of the most important skills you can have in life!

As we are starting a new year your tasks are:

- to make sure you read **EVERY DAY (for fun and challenge)**!
- to take your new reading diary home daily and ask a family member to hear you read so they can then complete the diary. You can show your diary as evidence in Tic Tac Toe assembly.
- to complete your Bug Club reading task each week so you are ready to join in with class discussions by Friday.

(Parents/Guardians- these things will be explained at the Year Group Welcome Meeting).

Geography

Draw and label the countries of Europe showing where the Romans, Anglo-Saxons and Vikings came from. Draw their journey to Britain using arrows.

Label seas, oceans and other geographical aspects such as capital cities, main rivers.

Art

The Romans are famous for their mosaic art. Do some research to find out about mosaics before creating your own. You could use coloured tiles or felt pens, paint, colour paper etc.

Maths

This year you will be learning 'Roman Numerals' as part of your maths curriculum. Find out how Roman numerals work. Create a poster to teach others the important facts.

I = 1	V = 5	X = 10		
I	II	III	IV	V
1	2	3	4	5
VI	VII	VIII	IX	X
6	7	8	9	10
XI	XII	XIII	XIV	XV
11	12	13	14	15
XVI	XVII	XVIII	XIX	XX
16	17	18	19	20

Maths

Make sure you know your x2,3,4,5,8 and 10 tables inside out and back to front. (End of Year 3 target.)

Create a x table game for a x table you need to practice. Think about games you know e.g. snakes and ladders to help you with ideas.

By the end of Year 4, you must know **ALL** your x tables to be on track so if you know your Year 3 x tables really well choose one of the others to create a game for.
